A recommendation letter for* Mr *Hamoud Anwar Aldaghmi

It is with great confidence that I recommend Mr *Hamoud Anwar Aldaghmi* (Student ID: 431101127, National ID: 1120779531), who completed the Software Design and Architecture (SWE 322) course under my supervision. During the semester, Hamoud distinguished himself as one of the most capable and engaged students in the class.

Hamoud's academic achievements were exceptional; he earned an **A grade**, a result that reflects not only his strong technical abilities but also his determination to excel. He demonstrated a deep understanding of topics related to programming languages principles. His assignments consistently showed clarity, accuracy, and a high level of problem solving.

Beyond his academic performance, *Hamoud Anwar Aldaghmi* brought a commendable level of professionalism and enthusiasm to the course. He participated actively, contributed thoughtful insights, and approached complex concepts with confidence and curiosity. His ability to communicate ideas clearly, along with his strong work ethic, made him a valuable presence in the classroom.

Hamoud's motivation to learn, combined with his strong technical aptitude, gives me full confidence in his future potential. He is well-prepared to succeed in any academic or professional opportunity, including advanced studies, internships, or specialized training.

For any further information, I am available at **aoalmejri@ju.edu.sa**.

Sincerely,

Lassaad Mejri, Ph.D.
Assistant Professor, Computer Science Department
Faculty of Computer and Information Sciences, Jouf University, Saudi Arabia
